February 13, 2012

Attn: Alexander Sanjenis  
Federal Communications Commission

Gentleman:

This letter is to confirm our conversation on Monday, February 13, 2012, concerning WIKC 1490AM radio station.

On August 17, 2009 WIKC Radio ceased to operate due to the extremely bad economic conditions in this area and due to two lightening strikes which severely damaged some equipment. Due to these economic conditions and the cost of replacing the lightening damaged equipment we decided not to sink more money into the station and to shut it down.

The F.C.C. was notified that the last day of broadcast activity was August 17, 2009.

The future of the station is very uncertain. We have attempted to sell the station to no avail. We have also attempted to donate the station to several non-profit groups also to no avail. The only alternative left was to close operation of the station.

We sent a certified letter to the FCC to inform you of the station going dark.

Thank you very much.

Sincerely,

G.S. (Buddy) Adams, Jr.  
Owner/General Manager
